

Pino Bike

PINO CUSTOM

The Pino is a Tandem bike that can be used around site and off site with prior booking. The front seat of the bike is recumbent and has a support harness for those that need it. Both seats have a huge range of adjustment to allow most users to use the bike. This bike would be best used on flatter ground, but those that are confident can take it off road. This bike would best suit a parent and child, the person at the back of the bike being the more confident.

We only have one of these bikes at the moment, a hire form will need to be completed when hiring. Any damage to the bike will need to be covered by the customer.
