20 Any other Business (Club and Trust)
Roger Crosskey noted that the UK had committed to signing and ratifying the Council of Europe’s Convention on Preventing and Combatting Violence against Women on 8th March; International Women’s Day. The Convention requires signatories to take action to combat 'verbal, non-verbal and physical' violence ranging from abuse to domestic assaults and murder. He knew anecdotally that female cyclists suffered gratuitous sexist abuse and asked whether Council would write to the Equalities Minister drawing her attention to this, as it would be unlikely to occur to Government as an area needing attention.

Proposed by: Roger Crosskey       Seconded by: Welna Bowden

A discussion followed and Roger Geffen agreed that there were plenty of anecdotal reports but no hard quantified data and Ministers preferred certainty when being asked to take action. Several speakers pointed out that male cyclists also suffered abuse and drivers aggressively driving too close to them. Roger Crosskey suggested that CTC might look to work with other organisations, including LCC and women's groups to investigate the issue further.

It was agreed Roger Crosskey would gather the data and write a letter for the Chair to sign.

Agreed: Nem Con
