

# SHOP WINDOW

A cross-section of products that **Dan Joyce** spotted at winter trade shows – before the Coronavirus swept in

## Shows off

The London Bike Show ([thelondonbikeshow.co.uk](http://thelondonbikeshow.co.uk)) is now scheduled for 3-5 July. Bespoked ([bespoked.cc](http://bespoked.cc)) is now on 16-18 Oct.

## 1 Kinesis Range Adventure E-bike

£3,500

An electric-assist gravel bike, the Range Adventure looks like a capable tourer and commuter too. It's powered by a Fazua Evation motor that disengages at 15.5mph and doesn't add drag. Weight: 15kg. [kinesisbikes.co.uk](http://kinesisbikes.co.uk)

## 2 Genetic Driser 4 handlebar

£44.99

Head tube too short? Genetic's 20mm-rise drop bar will sit you up a little. It's an alternative (or addition) to a steeper-angled stem. Width: 38-44cm. [geneticbikes.com](http://geneticbikes.com)

## 3 BZ Optics PHO Bi-focal Photochromic Glasses

£99.99  
Leave your reading glasses at home: the magnification [+1.50, +2.00, or +2.50] moulded into the bottom of these lenses will let you read maps, etc. [bzoptics.com](http://bzoptics.com)

## 4 Green Oil Graphinity

£TBC  
Green Oil's collection of biodegradable lubricants hasn't had a direct competitor to slippery, non-stick PTFE – until now. [green-oil.net](http://green-oil.net)

## 5 Box Four 8S Wide Groupset

\$154.99  
Big cassettes for 1x drivetrains aren't limited to double-digit-ratio groupsets. Like Microshift, Box Components caters for 9-speed (with a groupset called Prime 9) and now 8-speed. UK price TBC. [boxcomponents.com](http://boxcomponents.com)

## 6 Vango F10 Project Hydrogen

£600  
With a trail weight of just 680g, this is the world's lightest two-skin tent. It uses 'Airbeam technology' instead of poles; it inflates via a Schrader valve. Pack size is tiny: just one litre! [vango.co.uk/gb/](http://vango.co.uk/gb/)

## 7 Wolf Tooth B-RAD Bottle Shift

£21.00  
It can be difficult fitting a water bottle and mini-pump to a small frame or one with a rear shock. A side-loading bottle cage helps. So does shifting the mounts off centre with this. [wolftoothcomponents.com](http://wolftoothcomponents.com)
