

# SHOP WINDOW

Supply, it seems, is starting to catch up. **Dan Joyce** spotlights some products you can buy now... ish

## E-BIKE EVENT

There's an e-bike demo weekend at Alexandra Palace in London on 14-15 August. Register to ride at [cycleshows.co.uk/ebike-demo-weekend](http://cycleshows.co.uk/ebike-demo-weekend)

### 1 Ribble Urban AL e £2,499

Powered by an eBikemotion rear hub motor, Ribble's urban e-bike is, at 17.5kg, lighter than some unassisted roadsters – despite integral racks, lights, kickstand, and mudguards.

### 2 Apidura Revive Evaries

Taking a leaf from Carradice's book? Apidura doesn't only sell new bags now but also repaired, refurbished, and test samples of its luggage. More power to them.

[revive.apidura.com](http://revive.apidura.com)

### 3 Vodafone Curve Bike Light & GPS Tracker £79

This 40-lumen rear light has a SIM inside (monthly fee £3 or £4), enabling you to locate your bike via your phone. It also does ride logging, theft and crash alerts, and works as a brake light and bike alarm.

### 4 Rapha Women's Trail Shorts £110

Part of a new MTB range from the artfully photographed roadie brand, these 88% nylon/12% elastane shorts could be worth the high price if they're as good as Rapha's existing Randonnee shorts. Black or 'purple', XXS-XL.

[rapha.cc](http://rapha.cc)

### 5 SRAM Rival eTap AXS £1,100+

Wireless shifting has trickled down from Red and Force to SRAM's Rival groupset. It's much cheaper, especially in 1x, though still pricy. Good for an S&S couplings equipped road or gravel bike?

[sram.com](http://sram.com)

### 6 TRP Spyre Flat Mount calliper £55

Road and gravel bike frames are increasingly designed for lower-profile, flat-mount disc brakes. If you run mechanicals, this is arguably the best compatible option.

### 7 Ortlieb Handlebar-Pack QR £125

Ortlieb's new 11-litre bikepacking bar bag fits flat and drop bars with a strapping system called 'Bar-Lock', which requires no handlebar bracket. The bag is waterproof, of course. Weight: 530g.
